Zyoptix is an advanced eye surgery procedure that delivers a treatment unique to every individual, taking laser vision correction to a new frontier. Zyoptix uses the latest most advanced technology to detect and treat very small vision errors. In a recent [FDA](#) study, significantly more patients had better quality of night driving vision than patients treated with standard LASIK eye surgery.

Zyoptix offers so much more value to its patients, and with that comes the added cost. However, with this special running in July patients at the Atlanta Vision Clinic will receive this added benefit of Zyoptix absolutely free!

Who is Dr Ashraf?

Dr Ashraf has personally performed over 35,000 LASIK procedures. He is one of the most experienced refractive surgeons in the USA and UAE. Dr Ashraf has a very impressive academic background and extensive research has resulted in the publication of numerous articles in scientific journals and major textbooks on LASIK.
